The Two FRIENDS

Once upon a time there were two friends Mark and Raj they were walking in a desert. After some time they both felt thirsty but there was only one bottle with little water in it. Mark without sharing it with Raj drank all the water from the bottle . Raj upon seeing that, now no more water is left to drink got angry and slapped Mark. Mark felt very bad and took a dry stick from the ground and wrote on the sand that 'My best friend slapped me' after some time Raj apologized to Mark. They then moved on, after travelling some distance, they came across an oil well, Mark bent over the well to take a closer look and slipped and fell in it. Raj without wasting any time rescues him by pulling him out with the help of a rope, after coming out of the well Mark takes a stick from the ground and wrote 'Today my best friend saved my life' but this time he wrote it on a rock. Upon seeing that Raj asks him, "when I slapped you first , you wrote it in the sand but when I saved your life you wrote it on a rock, why???" Mark replied" I believe things which make you sad should not be remembered. So I wrote about the first incident in sand so even a gust of wind can remove it but the things which makes you happy should always be remembered. So I wrote the incident where you saved my life on the rock. No one can remove it."

Moral: Forget the bad, remember the good and live a happy life.

My MOM

My mom has long hair,
And she is very fair.
She is my ideal,
And always knows how I feel.

She wakes up at 6 o'clock and
Then goes with me for walk.
She is a teacher and prepares her
Children for a bright future.

The children are lucky to have
A teacher like my mummy.
She is a challenger,
Who always stands firm like a pillar,

I am very lucky to have a mother like her.
Who always guides me.
As she is very helpful,
She is a very beautiful home maker,
She is my super mom.

SAVE TREES

Trees are a precious gift to our lives from nature. Trees are very important to us. Trees are very helpful and useful friends of humanity. They are the real source of our health and wellness because they give us oxygen, cool air, fruits, vegetable, medicines, wood etc.

Trees reduce pollution and increase rain. They are home to many birds and animals. Birds make their nests on trees. Trees also help to prevent soil erosion.

You are AWESOME!

Do you sometimes feel bad? Are people mean to you? Are you scared of taking initiatives? Do you often conform to other people's opinions just to fit in? Self-improvement is not something that you can learn by copying others. It does not matter if 99% of people do not agree with what you are doing as long as you achieve a better result. Why?

Because you are awesome. Everybody is awesome. If you are alive, you are awesome. You don't have to be discouraged by what everyone else says, as an awesome person you continue doing good deeds, advancing your skills & knowledge, putting in hard work, developing yourself into a smart individual.

CHILD LABOR: A curse to our society

Not all children in India are lucky to enjoy their childhood. Many of them are forced to work under inhuman conditions where their misery knows no end. Though there are laws forbidding child labor, still children continue to be exploited as cheap labor. It is because the authorities are unable to implement the laws meant to protect children from being engaged as laborers. Unfortunately, the actual number of child labor in India goes undetected. Children are forced to work in conditions without adequate food, water, and rest. They are subjected to physical, sexual and emotional abuse.

Let us open our hearts and stand united against this injustice to gift every child his or her right.

MY PARENTS

Parents are a great gift in one's life. I can't imagine my life without them. They are very loving and caring towards me. My father is very kind and hardworking person. He loves me very much and takes care of all my needs. Sometimes he brings beautiful gifts for me. He takes me out and fills my life with happiness and joy. My mother is a home maker. She also takes great care of the house and cooks tasty food for all of us. She takes me to school in the morning and to the park in the evening. She tells me interesting bedtime stories. I love and respect them very much. When I grow up I too will take care of them just the way they have taken care of me.

If I Could be an ASTRONAUT

If I could be an astronaut
I would like to go
To a planet full of colors
With flowers in the snow.

I wouldn't go to Venus,
I wouldn't go to Mars,
I did find a kind of a special place,
Somewhere in the stars.

A place where fish have feathers,
A place where trees can walk,
That's where I will land my spaceship
and take a weightless walk.

SAVE WATER

It is very important
To save our water,
So listen carefully all sons and daughters
We need our water
For keeping ourselves clean
And for saving the animals
And keeping our trees
and plant green.
So when brushing your hands.
Think of all the thirsty
Children in the poorer lands.

I love my SCHOOL

I love my school,
My school is cool,
There I follow and obey the rules,
Because TEACHERS for me they care,
when I am shy and sometimes I cry,
She holds my hand and
Says, dear ONE you try,
The hands of "HOPE"
And "TRUST" she shows
I feel very happy and
Proud to BOW.

Leave Exam Fear

Listen O my dear leave exam fear
work hard and feel confident
give it your best and God will see the rest
In any situation never leave your cheer.

No one does best always in exam
Mistake do occur in reality realm
They give us training to always do better
Never loose your heart and don't shatter
Learn from your mistake and improvise
you will thus become more and more wise
people will admire and success will come near

Listen O my dear leave exam fear
work hard and feel confident
give it your best and God will see the rest
In any situation never leave your cheer.

Nothing is certain is ever changing life
Only good exam will never suffice
Problems don't declare their sudden arrival
Strength is needed for a peaceful survival
Practical learning is equally essential
It brings out your real potential
Opportunities lie in so many spheres

Listen O my dear leave exam fear
work hard and feel confident
give it your best and God will see the rest
In any situation never leave your cheer.
